

Desired Qualifications

- Must have a minimum of 60 college credits or be a recent graduate
- Ability to work independently
- Enjoy working with peers and being a leader
- Responsible and able to be a role model to peers
- Interest in fieldwork, field equipment, and aquaria
- Must be able to lift at least 50 lbs
- Ability to actively seek guidance and learn from mentors (staff, administrators, educators and peers)
- Previous experience at the Chincoteague Bay Field Station valued but not required
- Computer skills (Microsoft Office, database management, etc.)
- Experience with or desire to learn water quality management, animal husbandry, and standards for maintenance of aquaria.

Terms of service

- Dates: May 6 - August 13, 2019. Interns will work approximately 40 hours a week (approximately 400 hours total) during three of the four summer sessions.
- Housing will be provided as a shared suite in Salicornia Hall
- Meals in the cafeteria will be complementary when the cafeteria is open
- Stipend of \$250 for the summer
- Willing to work evenings and weekends
- Report daily to U&R Coordinator or Assistant Coordinator

Application Procedure

Fill out the U&R Intern application form on our website, including contact information for two references and adviser, as well as electronic attachment of cover letter, resume and transcripts (unofficial transcripts are acceptable).
